

Shepherd Program

Each member and regular attendee at Southminster has a shepherd who watches over him/her and provides support when needed. The shepherd prays for each person in their "flock" every day, greets them on Sunday morning, remembers their special days such as birthdays and anniversaries, and will assist in other ways as needed. Many members of our congregation feel the call to serve as shepherds. The shepherds are given a new "flock" assignment each year, and a training session is provided by our Pastor, Bill Havens.
